U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On February 16, 1975
- Export shipments in
Current Marketing Year
- Daily Sales reported
February 17 - 25, 1975

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on February 27, 1975, release:

Wheat: During the week ending February 16, a decrease of 44,500 metric tons (MT) in the apparent export commitment (cumulative exports plus outstanding sales) for 1974/75 was reported. Commitments to Iran climbed 74,900 MT to total 1.8 million MT, and other increases were reported for Chile--83,500 MT--and the European Community (EC)--24,900 MT. The reported commitments to India and the USSR fell by 163,900 MT and 31,900 MT, respectively, during the week. No new sales were reported under the daily system since February 16.

Reported sales to the People's Republic of China for 1975/76 delivery fell to zero when previously reported sales totaling 382,200 MT were cancelled. However, reported sales to India for 1975/76 delivery increased by 126,600 MT to total 608,400 MT.

Feedgrains: During the week ending February 16, the apparent export commitment for 1974/75 declined by 90,100 MT and no new sales have been reported since that date under the daily system. Total sorghum commitments increased by 69,300 MT during the week; sorghum commitments to Japan declined by 72,100 MT, while commitments to Venezuela increased by 106,100 MT. Corn commitments to the EC dropped by 177,100 MT, the second consecutive weekly decrease, to a total of 14.8 million MT during 1974/75. The apparent export commitment to Mexico increased by 167,500 MT.

Rice: During the week ending February 16, the apparent export commitment for 1974/75 increased by 42,100 MT, largely because of new sales totaling 34,700 MT to Bangladesh.

Soybeans: During the week ending February 16, the apparent export commitment declined by 293,000 MT, the sharpest weekly decline since December 8. Japan continues to reduce its outstanding commitments. Japanese imports of soybeans appear to be running below domestic consumption, indicating that stocks are being lowered. As previously noted, some increase in the rate of Japanese soybean imports is expected during the remainder of the marketing year.

Soybean Meal: The apparent export commitment declined by 174,000 MT during the week ending February 16. However, the annual unadjusted rate of exports increased to nearly 4.3 million MT, a new high for 1974/75. Cancellation of export commitments is continuing about as expected. Shipments are being maintained in response to the extensive decline in the soybean meal/corn price ratio in recent months which is causing foreign livestock and poultry feeders to use larger than normal quantities of soybean meal in their rations.

Soybean Oil: Exports of 13,000 MT during the week ending February 16, mainly to Yugoslavia and Peru, increased the annual unadjusted rate to 559,000 MT.

Cotton: During the week ending February 16, 61,000 running bales (RB) of Upland cotton were exported. The apparent export commitment for 1974/75 increased by 39,000 RB and now stands at 4,604,000 RB. Shipments to Japan and Korea, and increased commitments to Spain, Portugal, and the Far East, were the main features of the rather slow week.
